

GATI SHAKTI VISHWAVIDYALAYA

C Programming Language

Lab Assignment – 6

Instructions:

- 1. Write all the program and execute.*
 - 2. Maintain soft copy of all codes and prepare a Lab Record consisting all hand written programs.*
-

1. Write a program in C to demonstrate the use of the &(address of) and *(value at address) operators.
2. Write a program in C to add two numbers using pointers
3. Write a program in C to find the maximum number between two numbers using a pointer.
4. Write a program in C to store n elements in an array and print the elements using a pointer.
5. Write a C program to copy one array to another using pointers.
6. Write a C program to
 - a) swap two arrays using pointers.
 - b) reverse an array using pointers.
7. Write a C program to access two dimensional array using pointers.
8. Write a C program to
 - a) add two matrix using pointers
 - b) multiply two matrix using pointers.
9. Write a C program to
 - a) find length of string using pointer
 - b) copy one string to another using pointers.
 - c) concatenate two strings using pointers.
 - d) compare two strings using pointers.
 - e) ind reverse of a string using pointers.
10. Write a C program to return multiple value from function using pointers. (Eg: Return Addition and Subtraction from one function)
